

**VOLUNTEERS NEEDED** - The Sanford Airport Memorial Committee is looking for volunteers to help restore a vintage World War II PV-1 Ventura. This aircraft was one of the very first to operate at NAS Sanford. The Ventura was very active in Central Florida in the early 1940s, both here and at NAS Deland. We have recently acquired a retired aircraft from the National Museum of Naval Aviation in Pensacola and we are in the process of doing a "display quality" restoration.

The restoration hangar is opened on Saturday and Tuesday of each week. It is active from about 9:00 am to 3:00 pm. We currently we have about 8-10 interested volunteers working on this project. If you would like to help, please call George Speake at (407) 585-4006.

We are located in Building 125 next to the Air Cargo Center on Carrier Avenue in the Airport's Commerce Park. Stop in sometime soon to see what we are up to.
