## **Orlando Sanford - Fastest Growing Airport in 2001**

Second Year in a Row Airport Ranked #1

Sanford, FL., April 18, 2002 – For the second year in a row, Orlando Sanford International Airport (SFB) is the fastest growing airport in North America among airports with one million or more passengers according to Airports Council International (ACI). The report issued by ACI listed traffic statistics for all airports during calendar year 2001. Based on these figures, Orlando Sanford showed a 13.9% increase in total passengers over the prior year. The average in 2001 for North American airports was -6.3% and the average for Florida airports was -3.7%.

New services initiated by America Trans Air, Aeropostal, Pan Am, and Vacation Express were factors in the airport's growth in 2001.

Orlando Sanford International Airport is located near the Orlando attractions and is also convenient to Daytona Beach. Adjacent to the airport are the business communities of Lake Mary and Heathrow, part of Florida's "High Tech Corridor." Airlines and their passengers enjoy new terminal facilities, short walking distances, low operating costs, and convenient parking.

For more information on SFB, visit the airport's website at [www.orlandosanfordairport.com](http://www.orlandosanfordairport.com).
