Air 2000 will Fly to Orlando Sanford through March 2008

Sanford, Fla., May 14, 2003 – Orlando Sanford International Airport (SFB) announced today that Air 2000 has extended its contract with OSI, Inc. for terminal use and ground handling at Orlando Sanford through March 2008. Air 2000 has been flying to Orlando Sanford since 1999. As the UK's fourth largest leisure airline, it typically operates service to Orlando Sanford from London, Manchester, Birmingham, and Glasgow using Boeing 767-300ER equipment. Air 2000 is the in-house airline for First Choice, Unijet, Falcon, JWT, and Eclipse Holidays.

Suzanne Wood, Head of Airport Services, at Air 2000, commented on the contract extension, "After reviewing our long history with the airport and passenger feedback on the facility, the decision to continue using Orlando Sanford as our Florida gateway into 2008 was easy. We feel SFB still represents the best value-for-money to the airline and tour operators; and provides our passengers with a smoother, faster airport experience". Larry Gouldthorpe, Managing Director for OSI, Inc. at Orlando Sanford, stated, "In this environment, we don't take anything for granted. The ability to extend our relationship with an award-winning airline like Air 2000 is very satisfying. My thanks goes out to Air 2000 for the confidence they have in us by extending our contract".

Airports Council International (ACI) ranked SFB as the fastest growing North American airport in 2000 and 2001, among airports with one million or more annual passengers. Orlando Sanford International Airport is located near the Orlando attractions and is also convenient to Daytona Beach. Adjacent to the airport are the business communities of Lake Mary and Heathrow, part of Florida's "High Tech Corridor." Airlines and their passengers enjoy convenient parking, new terminal facilities, short walking distances, and low operating costs.

For more information about SFB, visit the airport's website at www.OrlandoSanfordAirport.com.
