**I. CALL TO ORDER**

The regular meeting of the Sanford Airport Noise Abatement Committee was called to order at 9:00 a.m. by Chairman Wes Pennington, after which the mission statement was read. The minutes for February were not approved due to lack of a quorum.

**II. NOISE REPORT**

**+Presentation and comments from Committee / Public**

George Speake presented the noise report for February. There were 11 complaints for the month of February. He stated that there was a new complaint that came from the Geneva area but that it was nothing out of the ordinary. Mr. Speake stated that the only odd noise complaint they had was on the sheriff's helicopter. Mr. Konstant asked if they had a way to track GA flights. Mr. Speake stated that he would check if this new system to track noise complaints could include whether the noise came from a GA aircraft or a commercial aircraft. Mr. Speake stated that for now he has been saving and tracking the data to go back and check on certain complaints through the month. Mr. Konstant stated that he thought most of the complaints are from the MD80 aircraft. Mr. Dale stated that it looked like most noise complaints were given for the evening times.

**IV. NEW BUSINESS-**

Mr. Speake stated that they are still working on the system that will help keep track where each complaint is coming from once its logged in. He stated that today they would be picking up the large maps from Kinkos that include a larger area to look at when discussing where the complaints are coming from.

Mr. Speake stated that he received a call for a gentleman from Arizona State University that was conducting a noise research on Williams Gateway Airport. The gentleman is collecting raw data from different airports around the country and plugging it into a system and comparing the noise complaints and looking at where they are coming from and where they stand compared to the contour lines of the airport. Mr. Speake stated that he asked the gentleman to send us the completed product of their research.
